2 Introduction and Background to the Project / Programme

2.1 Introduction to MyJustice

The European Union has contracted the British Council to deliver the rule of law and access to justice component of its Strengthening Governance in Myanmar/Burma Programme (DCI-ASIE/2014/037-333) component, through a delegation agreement for the implementation of the **MyJustice** programme.

A key component of the EU Programme is to support the rule of law and access to justice, to help ensure that citizens are better protected by the law, and to increase their access to formal and informal dispute resolution and justice systems. It will also support civil society in their provision of legal education and awareness-raising for citizens and officials and improve the work of institutions, which support the rule of law.

The objectives of the MyJustice programme are:

Overall Objective:

Improve access to justice and legal aid for the poor and vulnerable, develop legal capacity of justice sector professionals and strengthen selected rule of law institutions to better fulfil their mandates.

Specific Objectives:

1. To improve access to both formal and informal justice systems especially for vulnerable groups in six regions/states in Myanmar;
2. To strengthen the capacity of formal and non-formal justice service providers in Myanmar.

MyJustice places an emphasis on a people-centred approach, which is designed to encourage learning, trust and collaboration among and between all stakeholders. We work in close consultation with communities to promote enhanced and equitable justice provision for all groups, especially those currently most excluded. The programme delivers work across four interconnected results areas:

- **Result Area 1:** Increased capacity within communities to use and apply knowledge and understanding about their rights
- **Result Area 2:** Justice services are more widely available, of a higher standard and increasingly meet the needs of communities and their residents.
- **Result Area 3:** Community based dispute resolution mechanisms increasingly utilise inclusive and accountable approaches and methods within the communities that they serve
- **Result Area 4:** Increased evidence and knowledge sharing to inform justice policy development and implementation.

2.2 Background and objectives for this assignment

This RFP, related to Result Area 4, is aimed to support the production of a film to be shown at the National Justice Conference, which will be held in Nay Pyi Taw on 7 and 8 March. MyJustice's team leader is a member of the advisory group to the Union level Justice Sector Coordinating Body (JSCB). MyJustice is supporting this production on behalf of the working committee of the JSCB.

The discussions, among State and Regional level Justice Sector coordinating Bodies and other justice reform actors, that emerge from this conference will be used as a vital resource in the development of the JSCB strategy

MyJustice decided to support the production of a film, with the majority of the shoot concluding before the Justice Conference, resulting in a film to showcase during the conference and additionally support the livestream of the conference, including coverage of the key note speakers – Daw Aung San Suu Kyi and Attorney General – during the Justice Conference. This later footage is expected to be added to the film shown during the conference to then produce a final film for wider dissemination and sharing on many platforms. Around 400 participants from the Union Attorney General's Office (UAGO), Union level Justice Sector Coordinating Body, State and Regional level Justice Sector Coordinating Bodies, Civil Society Organizations, national and international organisations working for justice sector reform in Myanmar, will participate in the conference.

Detailed below are the **objectives of this assignment**:

- **Global objective**

The purpose of the film: to show the progress of Justice Sector Coordination Body at both Union and State and Region level and to show the efforts of the stakeholders who are working to reform the justice sector in Myanmar.

- **Specific objectives**

- To show the efforts of the union level body and justice sector reform organisations to enhance the access to justice and rule of law in Myanmar
- To show the progress of JSCB body and development of State and Regional level JSCB groups
- To show the important role of Justice Sector for the development of the country
- To promote the efforts and activities of working group to develop the national justice strategy
- To share the on-going activities and road-map for justice sector reform in Myanmar
- To share the key issues happening in Justice sector and the key findings of research products conducted by other justice sector reform organizations

14 Evaluation Criteria

14.1 You will have your tender response evaluated as set out below:

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tenders responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed Qualification Questionnaire (*if used*) will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification criteria set out in the Qualification Questionnaire (*if used*) may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council's requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire (*if used*) responses may also be verified as part of this stage.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Quality, including professional capacity	[50]%
Methodology and Approach	[30]%
Commercial	[20]%

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.

7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

14.4 Commercial Evaluation – Your “Overall Price” (as calculated in accordance with requirements of Pricing Approach/ Quotation for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the British Council as part of the pricing approach. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest “Overall Price”. Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also

supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire *(if used)*. If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire *(if used)* as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
